

Belle Adds to the mix

Now part of the Altrad Group (Baromix), Belle will introduce several new group products. The Belle and Baromix range of mixers will be exhibited side by side for the first time, along with the comprehensive Fort wheelbarrow line-up. New and improved high-performance plate compactors and a trench rammer will be unveiled, and modifications to benefit hirers and end users have been incorporated into a new range of Belle hydraulic packs and breakers. As we reported in November, the stand display will also include the Façade and Plettac multi-directional scaffolding products from Altrad. Show-only special offers will be available to new and existing customers as Belle aims to establish Altrad products to the hire industry.
